

To Whom It May Concern:

I am writing you to urge that you do not yield to pressure from the National Association of Broadcasters. Instead of depending on the government to protect their "turf" the members of the NAB should recognize that they need to improve their offerings in order to retain their listening audience. Satelllite radio is not free, I pay for the content and do not believe the NAB should be able to dictate what I chose to purchase. Protect my rights to chose products and services that I prefer without interference of special interests.

Sincerely,

Gary M. Daake
